

KENNEDY24

Measles Are Great, America!

- **Vaccines are bad, actually:** “A mountain of scientific study links autism to early vaccination with certain vaccines.”
- **Tax-free crypto schemes:** “I really started investigating bitcoin and the more that I learned about it, the more I fell in love with it and fell in love with the community. It's democracy. It's a guarantee of democracy, that decentralization.”
- **Say bonkers things about Wi-Fi:** “Wi-Fi radiation opens up your blood-brain barrier, so all these toxins that are in your body can now go into your brain.”
- **Say awful things about autistic people:** “I bet that you've never met anybody with full-blown autism your age. You know, head banging, football or helmet on, non-toilet-trained, nonverbal. I mean, I've never met anybody like that my age.”
- **Blame gender dysphoria and being trans on chemicals:** “I think a lot of the problems we see in kids—and particularly boys—it's probably under-appreciated how much of that is coming from chemical exposures, including a lot of the sexual dysphoria that we're seeing.”
- **Compare vaccination to the Holocaust:** “They get the shot, that night they have a fever of a hundred and three, they go to sleep, and three months later their brain is gone. This is a holocaust, what this is doing to our country.”
- **Make racist conspiratorial comments about Jews and Chinese people:** “Covid-19. There is an argument that it is ethnically targeted. Covid-19 attacks certain races disproportionately. Covid-19 is targeted to attack Caucasians and Black people. The people who are most immune are Ashkenazi Jews and Chinese.”
